

with Middle Level Endorsement Option
THE UNIVERSITY OF RHODE ISLAND
 College of Human Science & Services
School of Education

During the first three semesters, students interested in Secondary Education should take EDC 102 - Introduction to American Education - and EDC 250 - Preprofessional Field Experience. Students should also fill as many General Education requirements as possible and start fulfilling their Arts and Science requirements. PSY 113 is a prerequisite for the Secondary Education Program and will also count as a Social Science in your General Education requirements.

A dual academic major in Secondary Education and an Arts and Science BA program is required for Secondary Education majors. The Arts and Science major requires a minimum of 30 hours. Majors are available in following areas of teacher certification: **Biology, Chemistry, English, French, German, History/Social Studies, Italian, Latin, Mathematics, Physics, and Spanish.** General Science does not have a related Arts and Science major, but students often major in Biology and gain certification in both General Science and Biology. In many concentrations, related courses (e.g., math courses for science, or political science courses for certification in history/social studies) are required. A specific list of subject matter requirements for each teaching certification in Secondary Education grades 7-12 and the Middle School Endorsement is available from the School of Education, 705 Chafee.

All prospective Secondary Education students should apply to the School of Education during the semester that they attain 42 credits. Application is due in January - during the sophomore year. Juniors are also welcome to apply but should take special care to follow the requirements below and in their Arts and Science major prior to application. Applicants **must** have a minimum **cumulative G.P.A. of 2.5**, as well as a **G.P.A. of 2.5 in education** and a **2.5 G.P.A. in the area of certification** - the Arts and Science Bachelor of Arts (BOA) major. A test of academic skills prior to admission is required.

(See School of Education website for full application information: www.uri.edu/hss/education/default.htm)
