

URI Inclusive Mentoring Workshop

From Mentoring Basics to Building Inclusive Mentoring Practices
June 23 - 30, 2021

Working in a research lab offers unique opportunities for students to contribute to the generation of new knowledge and cultivate the scientist within themselves. In order for this to happen, lab PIs must be positioned to support and nurture this process. This workshop will allow participants to strengthen their basic mentoring skills while also identifying opportunities for effective inclusive mentoring to consider strategies for sustaining equitable and inclusive lab climates.

Dates and Sessions*

Session 1: June 23 (Wed)
9:00-11:00am

Session 2: June 24 (Thur)
9:00-11:00am

Session 3: June 28 (Mon)
1:00-3:00pm

Session 4: June 29 (Tue)
9:00-11:30am

Session 5: June 29 (Tue)
1:00-3:00pm

Session 6: June 30 (Wed)
1:00-2:30pm

*Faculty must attend all 6 sessions to receive a certificate to be a National Research Mentor Network (NRMN) certified mentor and to receive the summer stipend. The summer stipend for faculty participating in this workshop is \$1,000.

This multi-session workshop will allow participants to gain proficiency in topics from aligning expectations and effective communication to addressing equity and inclusion and power and privilege in the research sciences.

Facilitators:

Michelle Fontes
Dr. Aisling Caffrey
Dr. Bryan Dewsbury
