## Appendix AM:

Training Time Equivalency-Semester Hours

TRAINING TIME EQUIVALENCY TABLE - FULL TIME = 12 OR MORE SEMESTER HOURS (38 CFR 21.4272(g))

USING THE TABLE
In determining whole weeks in the course, disregard fractions of 3 days or less and consider fraction of 4 days or more as a full week. Determine training time by reading across the credit hour line to the number of weeks per term column.

EXAMPLE
5 semester hours in 10 weeks is $3 / 4$ time. (This is the same result obtained from using the formula specified in 38
CFR $21.4272(\mathrm{~g}): 5 \times 18=90$ divided by $10=9$ sem. hrs. which is $3 / 4$
training.)

TRAINING TIME
$\begin{array}{ll}F T & =\text { Full Time } \quad 3 / 4=\text { Three-Quarter Time } \quad 1 / 2=\text { One-Half Time }\end{array}$ $-1 / 2=$ Less than One-Half, More than One Quarter * $1 / 4=$ One Quarter or less
$-1 / 2$ Time -- Chapters 32 and 106 do not have less than one-half time, more than onequarter time. For these benefits, $-1 / 2$ time is treated as $1 / 4$ time.
