Dear New Student,

Welcome to the University of Rhode Island and URI Health Services! We know this is an exciting time with much to do, but we want to inform you of some actions you must take to fulfill URI Health Services requirements. All **new international students** must complete these requirements by the **first day of classes (September 8, 2021)**. Please obtain your immunization records from your medical provider and follow the steps below. **Please note, you will not be able to register for the patient portal until you have registered for classes.** If you are not registering for classes before arriving at URI, please bring your immunization records with you so that we can assist you with any missing requirements during your orientation.

Once you have registered for classes for the Fall 2021 semester, please visit our website at **health.uri.edu** and visit the **Welcome New Students – Get Started Here** banner. Detailed instructions on our website will guide you through the requirements. Below is a checklist of actions that need to be completed. Again, complete the items that you can complete prior to arrival and we will assist you with any missing requirements upon your arrival.
