

Materials:

Poster board with outline of a person on it, Post-it notes, pens/pencils/markers

Objective:

Allows students to share a little bit about themselves while being creative.

Instructions:

Give each student one post-it and instruct them to make a “tattoo” that is a representation of themselves (could be words, picture, whatever they want). After everyone is done, have each student attach his or her “tattoo” to the person and talk about what they drew.
