

Compost Treatment

Use this record for on-farm composting. Record the date piled, turning dates, and the temperatures maintained. Use one record for each pile or row.

Farm Name and Address:	Type of Compost Method:	Compost Ingredients:	Date Piled:	Date Finished:	Row Number:
------------------------	-------------------------	----------------------	-------------	----------------	-------------

Date Turned	Temp/Time Test Area 1	Temp/Time Test Area 2	Temp/Time Test Area 3	Temp/Time Test Area 4

Proper compost production requires a minimum temperature of 131°F be maintained for three days using an enclosed system **or** a temperature of at least 131°F for 15 days using a windrow system, during which the materials must be turned five times. (FSMA Produce Rule. 2015. Rule 21 CFR part 112.54(b)).
