

Step 1: Download the TransLoc app from your phone's app store or click on the QR code below

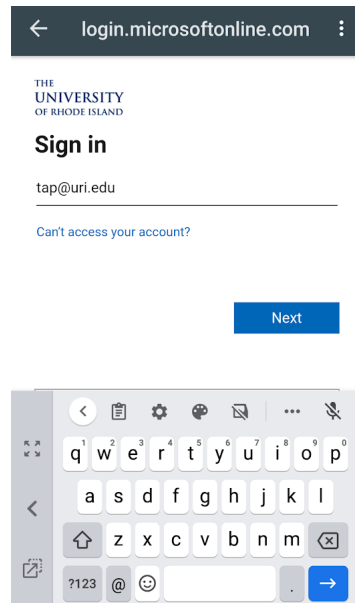

Step 2: To enable location services, click “settings” on the lower menu bar (#1) and then log in (#2).

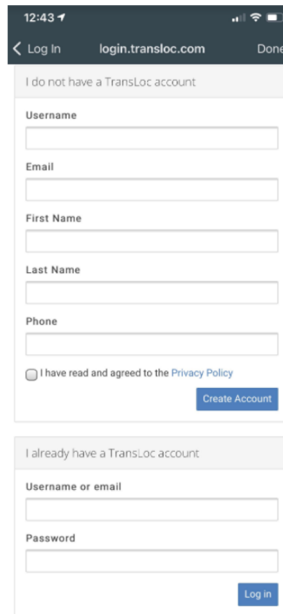

Step 3: Select “log in with university account” and choose *University of Rhode Island* in the drop-down menu

Step 4: Sign in with your SSO/ @uri.edu email.

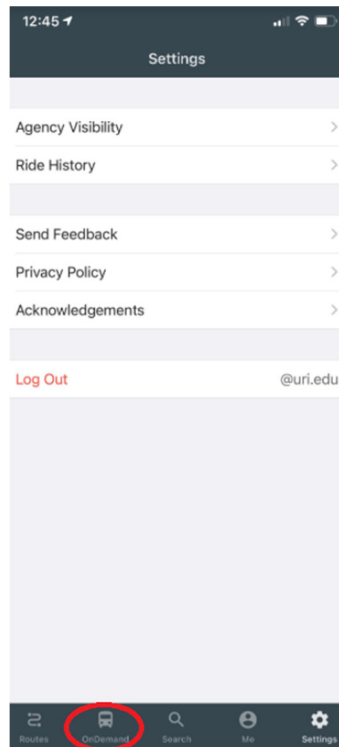

Step 5: Set up a username and opt to stay logged in if desired.

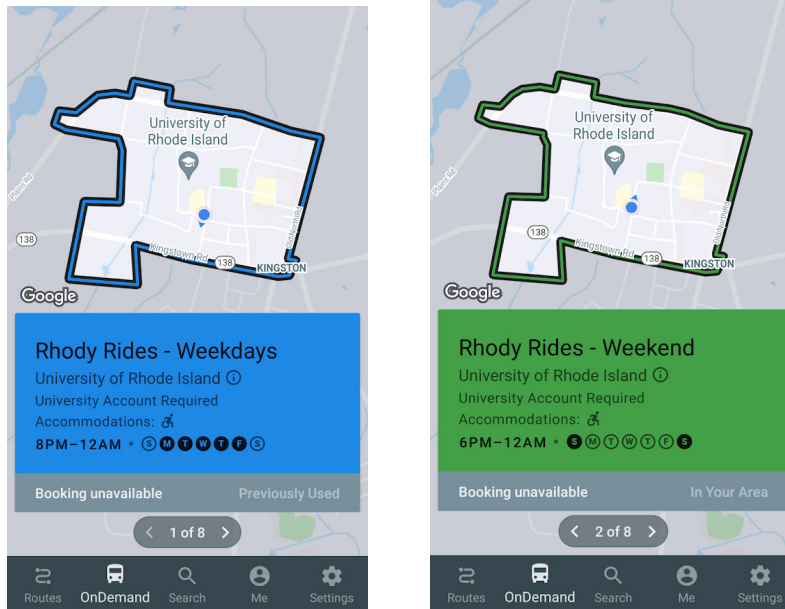

The screenshot shows a mobile application interface for logging in or creating an account. At the top, there is a header with a back arrow, the text "Log in", the URL "login.transloc.com", and a "Done" button. Below the header, there are two main sections. The first section is titled "I do not have a TransLoc account" and contains several input fields: "Username", "Email", "First Name", "Last Name", and "Phone". Below these fields is a checkbox labeled "I have read and agreed to the Privacy Policy" and a blue "Create Account" button. The second section is titled "I already have a TransLoc account" and contains two input fields: "Username or email" and "Password", followed by a blue "Log in" button.

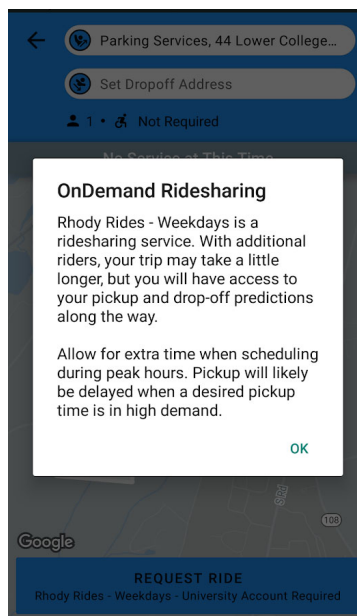

Step 6: Select the "Ondemand" option on the lower menu bar.

Step 7: Depending on when you will be requesting your ride, choose either Rhody Rides- Weekdays or Rhody Rides- Weekend. You may need to swipe left or right to find Rhody Rides.

Step 8: Choose your desired destination on the map and the time you would like to be picked up.

Step 9: Confirm your pickup location and your ride will be on its way!
