

### **Special Committee to Review University Rules on Minor and Major Requirements Charge**

This committee is charged to broadly review the issues relating to rules governing the ability to count courses for both majors and minors, and the impact of those rules for current and returning students. The committee is charged to make recommendations to the Faculty Senate to make those rules more flexible for programs. Issues to consider include:

- Core major and minor requirements versus prerequisite and program requirements
- Ability of students to return to URI and use courses in a minor in order to get a second major
- Clarification of standards for majors and minors
